Subject: RE: NCI BioPortal Scope Document

Approved with one editorial note.

In Section 6 you refer to 1.0-Beta Release. In section 3.4.3 you say "The first will be a 1.0 Release of the NCI BioPortal..." , so I am not sure what6 you are calling this initial release, 1.0 or 1.0-beta. Pls change one ort the other...

Subject: NCI BioPortal Scope Document
Importance: High

Hello Frank –

Charles and I are looking to get your approval on the [NCI BioPortal Scope Document](#). It's been updated to reflect the new EVS Scope Template guidelines (primarily Gforge Tracker references). Just acknowledge your approval via email and I'll update the document with a "Signature on File" reference.

Thanks,
Johnita
